To whom it applies:

Talent Acquisition, HR Business Partners, HR Specialists, Head Hunters, Selection Managers and everyone who is passionate about human resources and wants to analyse the main “predictiveness” tools used in personnel selection

Targets

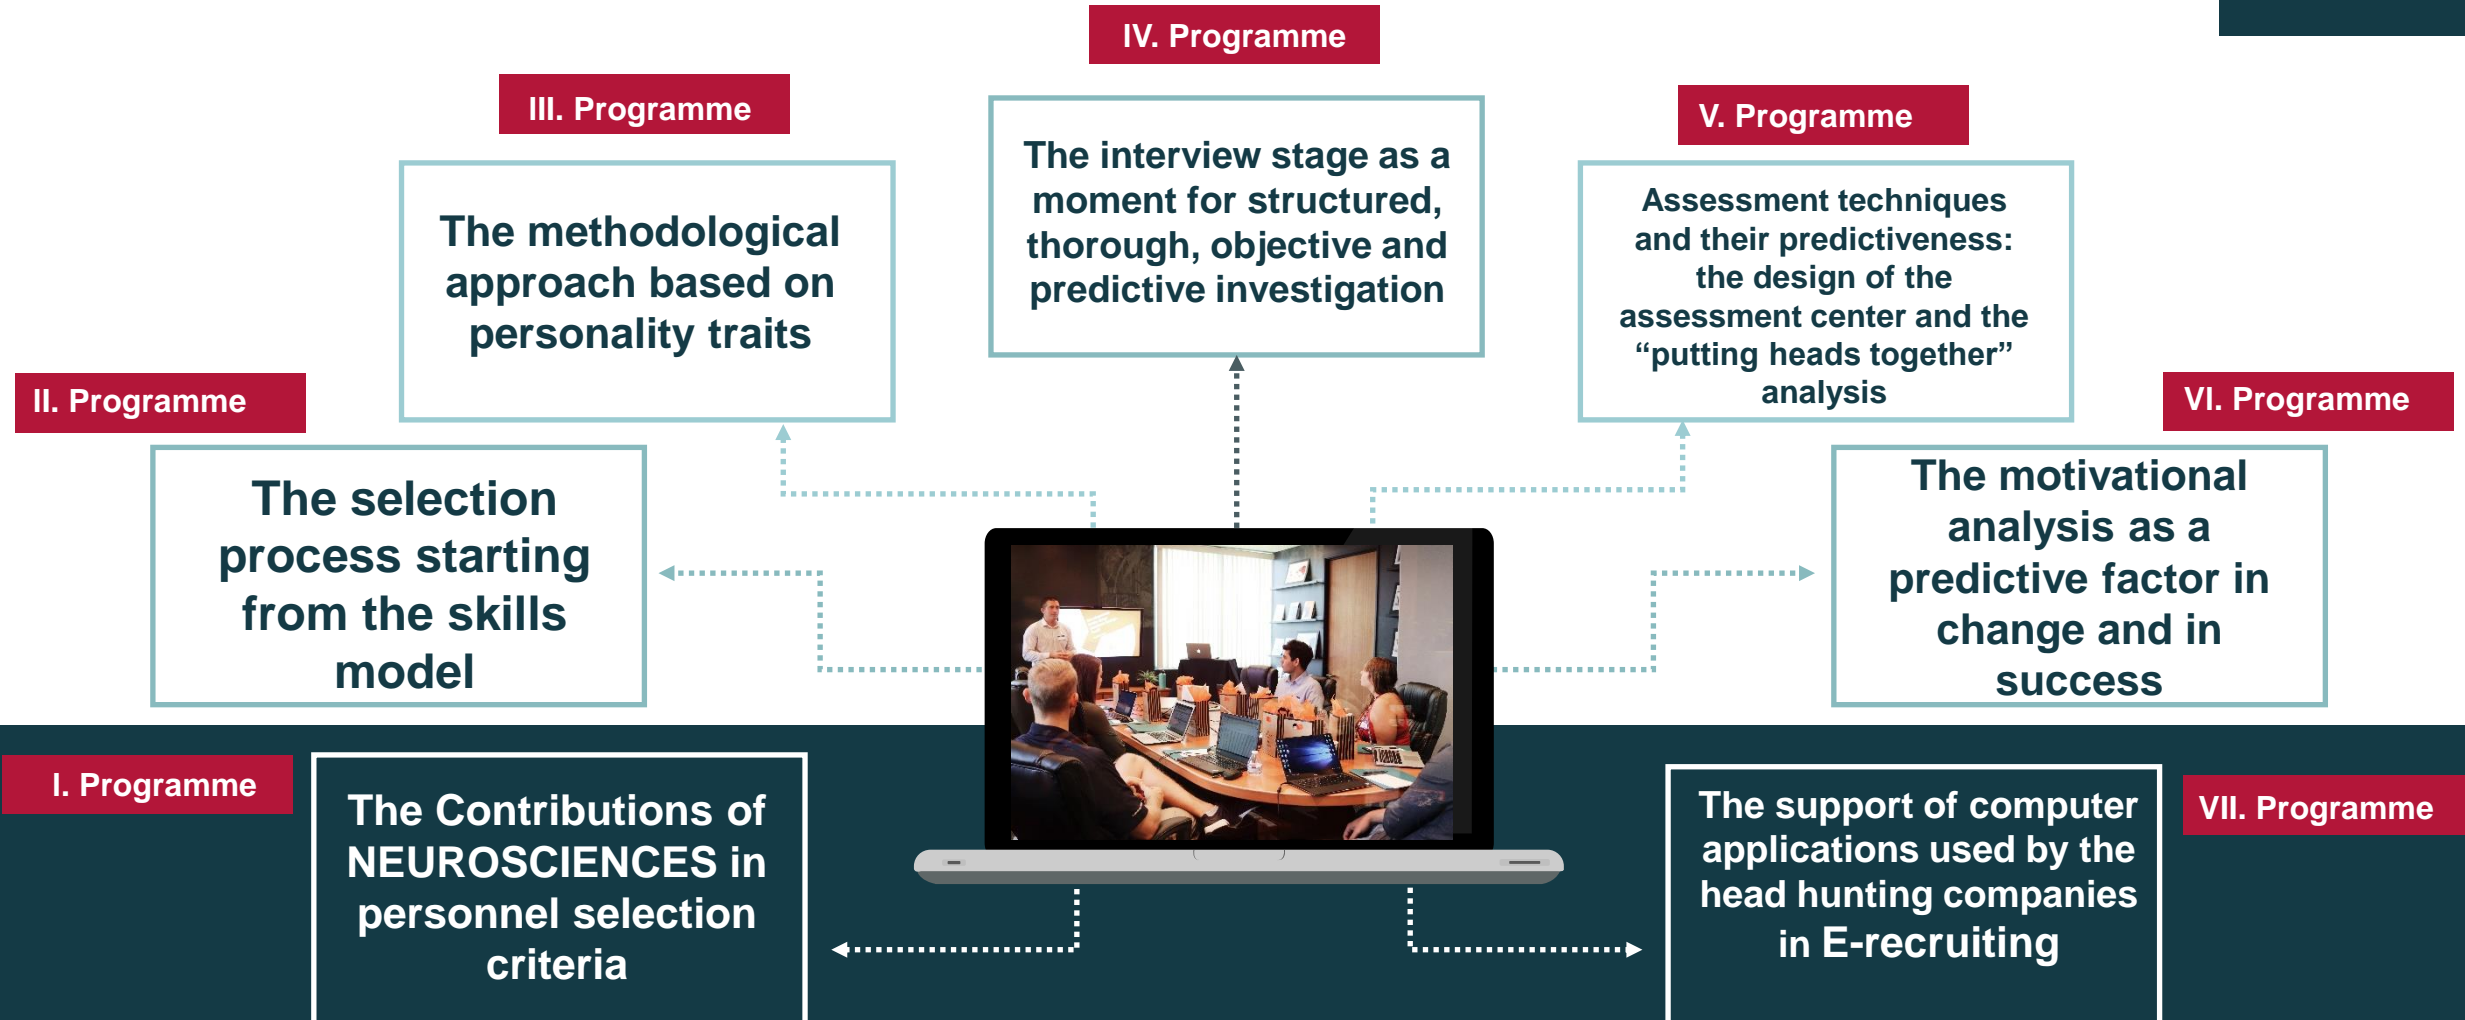

Plan the selection interview on “scientific bases” tied to the skills model and acquire a structured interviewing method to reduce the risk of error and to increase the level of “significance”

EXP ACADEMY

The in-depth study sessions allow the participant to tackle the planning, application and re-elaboration of the advanced individual and group personnel selection techniques with a practical and concrete approach

PROGRAMME

A NEW TRAINING
FOR A LIFE CHANGE

YOUR Professional CARRER COACHING

EXERCISES

The sessions will be distinguished by strong interaction and continuous moments for comparison entailing considerable participation, simulation and role playing.
